The **WA-HS1** is a professional grade headset microphone at a value price. With adjustable metal frame body, rubber ear mounts, and omni mic element, the WA-HS1-W works with either our WA-100B one channel receiver system, or our WA-200B two channel receiver system. It fits seamlessly into many applications from distance communication presentations, house of worship, staging and rental, permanent installations, and more.

**Key Features**

- Compatible with WA-100B and WA-200B belt pack systems
- Metal pliable frame body
- Rubber flexible ear mounts
- Metal adjustable gooseneck
- Cardioid element
