

PI1000 PureInstall HDMI Cable w/TotalWire Technology

PureInstall **PI1000 Series** HDMI cables support all HD resolutions and formats including 1080p, 4K, and 3D. Integrated Ethernet channel technology consolidates video, audio, and data transmission into a single HDMI cable, combining optimum transmission quality with bi-directional networking at up to 100Mb/sec. PI1000 Series cables also feature **SLS™ (Secure Lock System) Technology**, providing a secure and stable connection to HD devices despite heavy strain. The locking connectors have a hold on the HDMI port many times greater than a conventional HDMI cable, delivering up to 25 lbs. of retention force. When the connector is inserted into any HDMI device, the built-in lock automatically engages. To release the cable, simply pull back on the cable's spring-loaded connector cover to unlock and disengage the cable.

Key Features

- Certified High Speed HDMI cable for 3D and Ultra HD/4K (2160p)
- HDMI 2.0 compatible
- Triple shielded for superior noise immunity
- SLS™ secure-locking connectors
- Available in pre-terminated lengths up to 66 ft. (20m)

General Specifications

CONNECTOR TYPE(S)	HDMI Type A male (19pin) incl. ULS™
CONTACTS	24 ct. gold-plated, long-life design
CONNECTOR MATERIAL	LSZH PVC
CABLE TYPE	Round, Tinned OFC coper
COMPLIANCE	HDCP, CEC
SUPPORTED RESOLUTIONS	4K / UltraHD / 2160p @30Hz oder 4K@60 (4:2:0) bzw. 1080p FullHD
JACKET TYPE	Highly elastic, halogen-free LSZH PVC
JACKET COLOR	Black
SHIELDING	Aluminium foil (100% density), Mesh (100% density)
OUTSIDE DIAMETER	10.5 mm
AVAILABLE CABLE LENGTHS	3.3 ft. (1 m) to 66 ft. (20 m)

Warranty

WARRANTY Limited Warranty (3-Years)
