

WA-HS1-B Headset Wireless Microphone

The **WA-HS1** is a professional grade headset microphone at a value price. With adjustable metal frame body and gooseneck, rubber ear mounts, and cardioid mic element, the WA-HS1-B works with either our WA-100B one channel receiver system, or our WA-200B two channel receiver system. It fits seamlessly into many applications from distance communication presentations, house of worship, staging and rental, permanent installations, and more.
